- create following user structure and make sure that only group members (along with owner) can write the file and others are not having permissions to write the file. (please make sure prashant is same user who must be present in two groups).

  - sunbeam
    - tct
      - amit
      - nilesh
      - vishal
      - gajanan
      - onkar

    - admin
      - rohit
      - rupam

    - hr
      - nitin
      - prashant

    - account
      - prashant

- create following structure and make sure that owner has both read and write permissions, group members have only read permission and others are not having any permissions

  - developer
    - developer1 . .
    - developer50

  - tester
    - tester1 . .
    - tester10

  - devops
    - engineer1 . .
    - engineer5

  - Admin
    - admin1 . .
    - admin10

  - Hr
    - hr1 . .
    - hr5

  - account
    - accountant1 . .
    - accountant5
